Ballinahinch National School Website policy

It is the school's first duty to ensure that every child in their care is safe and therefore that no individual child could be identified or contacted by visitors to the school's website. A similar responsibility also applies to school staff and to the general security of school premises. The following rules will be adopted by everyone involved in preparing the materials for the school website:

Photographs of pupils are only of general groups, in full clothing, preferably at a distance or otherwise not easily identified- e.g. with face averted. Individual photos are not used.

No surnames or other identifying information are attached to photographs.

The content of pictures are considered for good taste and the dignity of people in the pictures.

Pupil's work displayed online is identified only by class – e.g. "painting/writing by a 2nd class pupil" and will not contain information, such as family names, which might identify that pupil or family members. Nicknames which do not allow identification of child are allowed.

Any incident of an image considered by a pupil, staff member or parent to be inappropriate to the website or these guidelines should be reported to the principal. The person reporting may choose to do so anonymously, but must give reasons why they feel the images are not appropriate.

Events and trips. General information only.
